Office Action Summary

Art Unit: 2661

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Soliman (5,675,581).

Soliman discloses simulating user interference in spread spectrum communication network comprising the steps of:

calculating an interference measure from a mobile unit received pilot power; (see abstract); and

setting an initial power level in a forward link based on said interference measure (see abstract).

2. In the remarks of Aug. 27, 2001, applicant traverses the rejection of claims 1-26 under 35 U.S.C. 102(e). The traversal is based on the ground that the reference do not teach where the power level of the pilot signal received by the mobile station is compared to the original power level sent by the base station to develop an interference measure. This argument is not found to be persuasive because applicant's argument is not directed at the

claims. The limitation argued by applicant is not cited in the claims.

3. Applicant's arguments filed 8/27/01 have been fully considered but they are not persuasive.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
